**DETAILED ACTION**

***Claim Objections***

1. Claim 6 is objected to because of the following informalities: the word "sufficient" is a subjective term where there is no standard meaning of the term. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 6-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Christianson (US Patent No. 5,032,015).

Christianson discloses a portable mirror (see Figs. 1-3) for use in a bathroom, shower or other steamy environment (column 1, lines 17-22), the mirror including a front mirrored surface (16), a rear surface (14) and a plurality of collecting and dispensing means (30) disposed on at least the rear surface (column 6, lines 60-63) for rapid and simultaneous collection of heated water from the environment into each of the means and for

subsequently dispensing the thus collected heated water from the means over at least the rear surface at a rate *sufficient* to maintain the front mirrored surface condensation-free when the mirror is in use in the environment (column 6, lines 55-64), wherein each of the collecting and dispensing means is an open-topped reservoir, cellular, cavity or bore passing through (see column 6, lines 63-64).

#### ***Response to Arguments***

4. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
